

## Cedar Park School, Buckinghamshire

### About Us

As a class, we felt privileged to get the opportunity to participate in the M&S Kids Takeover.

Our year six class is in a one-form primary school in Hazlemere. We are very fortunate as we have our own swimming pool and get opportunities like the Kids Takeover.

It was very hard to fit this in with our River Dart residential, SATs revision, school productions and lots more but we did and had great fun. Our class was extremely excited when we found out we were participating in the Kids Takeover – we were desperate to get started. This was one of the most exciting projects we've ever done.

Our school may be small but every pupil gives 110% towards everything, no matter what. During the project we have been able to use our imagination and also incorporate factual information which we have learnt about. When finding out about what M&S sold in the 1940s; like clothing, books and more, we felt very fortunate to get this once-in-a-lifetime opportunity and are all extremely grateful – we know the feeling is mutual between all the other schools.

Thank you Marks & Spencer!
