

## Millbrook Primary School, Greater Manchester

### About Us

This display has been created by Year 5 at Millbrook Primary School under the guidance of Mrs Roberts.

Millbrook Primary school has 245 wonderful children. All of our children are exceptionally kind, caring and hard working. We promote a friendly environment, caring for everyone. All staff are very helpful and kind to the pupils.

We are lucky to have a 'friendship stop' so we can chill and chat with each other. The school is set in a beautiful location, with an amazing forest in our grounds. This helps children learn outdoors and explore nature. We are extremely lucky to have space to grow our own vegetables and fruits, whilst taking great care of our chickens and ducks.

The playground is fantastic, offering us lots of places to play. There are several football pitches, tyres and a trim trail for climbing and balancing.

In our school, we have 8 classes including nursery and reception who have their own playground. We have chosen to take part in this fantastic project as we have a passion for history in our school.

Year 5 have really enjoyed this experience and we look forward to seeing our exhibition in the M&S archive.

We hope you have enjoyed our selection of 1960s artefacts.
