

## Hipperholme Grammar Junior School, Halifax

### About Us

This display was created by Form 4 from Hipperholme Grammar Junior School.

We are a small, independent school near Halifax in West Yorkshire and there has been a school on the site since 1648. Our school motto is 'Here Great Journeys Start' and they certainly do as our school goes from Nursery to age 16.

It has been really exciting being part of the project and finding out more about the range of products and thinking about how they are designed for life today.

This has also inspired other work in our classroom, especially in our DT, English and Geography lessons. It was fun talking about and finally choosing our contemporary addition to the display: it was close but the smartphone won in the end!

Visiting the archive during the project was really inspiring and we enjoyed being able to have a look behind the scenes as well as investigate some more of the objects in the collection.

We hope you enjoy your visit to the archive too!
